The House of All Faiths & Communities.

The **HOFAC** Declaration

"The world suffers a lot, not just because of the violence of the bad people, but because of the silence of the good people."

— Napoleon Bonaparte

We must speak when the public cannot. This is why HOFAC was formed.

We, the faith leaders of the world must unite to ensure peace and sanctity of the world. We must, together, take the pledge that the people who follow our faith will never harm or hurt any person, any being or any property of our respective societies.

We have to unite all the faiths and communities of our country, our region, our world with love, harmony, kindness, selflessness, nonviolence and togetherness. We must, as faith and community leaders, uphold Responsibility, Accountability and Respect in our societies. We must distance ourselves from hypocrisy of all kinds and should be bold enough to speak out loud when any people of any community disrespect our pledge of harmony and solidarity.

We have a great responsibility to maintain peace and harmony, love, hope and compassion, while following our chosen faiths, without discrimination. We are united as love and kindness incarnate. Irrespective of our faith as well as political inclination, we shall only respond with love and understanding of every situation of the society. Nobody is higher or lower. Nobody is better or worse. We have to protect the helpless strata of our society. We have to denounce violence of all kinds. We have to quarantine the harmful of our society irrespective of their faith and political inclinations. We have to always maintain righteousness, harmony and peace in our societies.

We are HOFAC. We are responsible faith leaders without hierarchies.

We are all responsible for the well being as well as the conduct of people of our faith whom we lead. We are here to ensure everyone who is born on earth has a justified existence and a complete life.
